Survey Coordinates and Grid

Please note that the grid shown on this drawing is as follows:

- ☐ Arbitrary
- ☒ Arbitrary but related to building line
- ☐ Arbitrary but approx. related to North
- ☐ Best fit to an Ordnance Survey Digital Sheet
- ☐ Related to the Ordnance Survey National Grid

Levels

Please note that the levels shown on this drawing are as follows:

- ☐ Arbitrary and related to a temporary bench mark
- ☐ Related to an Ordnance Survey Bench Mark
- ☒ Related to the Ordnance Survey National GPS Network

Spot locations are indicated by a cross or the decimal point

Bench Mark

Type: n/a
Position: n/a
n/a
Value: n/a

Trees

All trees sizes are approximate and should be checked on site before using information. Where guaranteed tree species become important the services of a tree expert should be employed.

Notation : diameter of trunk / Height / Spread

Drainage

Where drainage covers have been lifted data has been recorded for each individual manhole from the surface and connections to other manholes, pipes or gulley are assumed. Where information is required by accessing the manhole or tracing to other manholes then a services trace will be needed.
